Portfolio: [sazid.in](#) | [LinkedIn](#) | [GitHub](#) | [LeetCode](#)

PROFESSIONAL SUMMARY

Highly motivated and detail-oriented Computer Applications student with a strong foundation in software development, web application security, and system administration. Technical proficiency demonstrated through professional job simulations and practical projects, with hands-on training in identifying critical security vulnerabilities like XSS and SQL injection. Adept at leveraging programming languages and version control tools to build efficient, scalable solutions. Eager to bring foundational IT skills and practical cybersecurity insights to a forward-thinking technical team.

TECHNICAL SKILLS

Languages: C, C++, JavaScript (Intermediate), SQL

Web Technologies: HTML5, CSS3, Web Application Security Fundamentals

Tools & Frameworks: Version Control (Git/GitHub), Penetration Testing Basics, Office Automation

EDUCATION

Bachelor of Computer Applications (BCA)

01/2025 – 12/2028

Sai Nath University, Jharkhand, India

Higher Secondary Education (+2 Science - PCM)

01/2023 – 12/2025

+2 High School Barhi, Hazaribag, Jharkhand, India

TECHNICAL PROJECTS

Developer Portfolio Website | [GitHub Repository](#)

01/2026 – 03/2026

- Designed and deployed a responsive, professional personal portfolio website to showcase software engineering capabilities, technical skills, and academic certifications.
- Implemented clean code structures using HTML, CSS, and modern JavaScript to maximize visual appeal and ensure cross-device responsiveness.
- Utilized modern version control paradigms (Git/GitHub) to manage source code updates and manage production-ready releases seamlessly.

PROFESSIONAL CERTIFICATIONS & EXPERIENCE

Deloitte Australia – Cyber Job Simulation (Issued via Forage) | [Verify Certificate](#)

10/2025

- Completed comprehensive practical modules focusing on real-world cyber risk assessments, corporate cybersecurity controls, and standard industry frameworks.
- Gained deep practical insights into vulnerability analyses, data handling protection protocols, and identifying potential system vectors.

Advanced Diploma in Computer Applications (ADCA) | [Verify Certificate](#)

02/2025

- Successfully completed a comprehensive certificate course with a final grading of **Grade A** at Softech Computer Education (Associated with Glister Eduversity, an ISO 9001:2015 certified institution recognized by the Government of India).
- Acquired rigorous advanced foundational knowledge spanning office automation, database operations, structure planning, and essential computer architecture configurations.
